KEY ACHIEVEMENTS

- Your Achievement**
Developed **full-stack web applications** using React for frontend and Django/Node.js for backend.

Implemented **machine learning models** using Scikit-Learn with proper data preprocessing and evaluation.

Practiced **neural network fundamentals** using Keras, understanding model fitting and overfitting.

INTERESTS

ABDUL MOEEZ IFTIKHAR

JUNIOR FULL-STACK DEVELOPER (PYTHON / DJANGO / REACT) – WITH AI & ML FOUNDATIONS

SUMMARY

Motivated Computer Science student with hands-on experience in **Full-Stack Web Development** using **Python, Django, React, Node.js, and Bootstrap**, along with a strong foundation in **Artificial Intelligence and Machine Learning**. Skilled in building responsive web applications, developing backend logic, and implementing basic ML models using **NumPy, Pandas, Scikit-Learn, and Keras**. Passionate about learning intelligent systems and applying AI to real-world software solutions.

EXPERIENCE

Company Name

Academic & Personal ProjectsJunior Full-Stack Developer / AI Learner Remote | 2023 – PresentBuilt responsive user interfaces using React and Bootstrap.Developed backend logic and APIs using Django and Node.js.Integrated frontend with backend services and handled data flow.Performed data cleaning, normalization, and feature scaling for ML models.Trained and evaluated ML models using Scikit-Learn and basic neural networks using Keras
