

Abdul Moeez Iftikhar

JUNIOR FULL-STACK DEVELOPER (PYTHON / DJANGO / REACT)

Pakistan
moeziftikhar2003@gmail.com
linkedin.com/in/moeziftikhar

Education

Bachelor of Science in Computer Science (BSCS) 2022 – 2026
COMSATS University Islamabad, Wah Campus

Projects

LAWGOARITHM – AI Case-Lawyer Matching Platform Jan – May 2026

Final Year Project
Full-stack application matching clients with lawyers using intelligent similarity algorithms. Built responsive dashboard panels and secure appointment features.
Technologies: Django, Python, PostgreSQL, Bootstrap, RESTful APIs

Regulise – Care Organization Compliance Platform 2025 – 2026

Multi-Tenant Enterprise App
Developed multi-tenant pipelines, Role-Based Access Control (RBAC) structures, automated compliance training matrices, and regulation report generation engines.
Technologies: Python, Django, Next.js, PostgreSQL, Docker, Git

Headless Email Ingestion & Extraction Pipeline 2026

Automation System
Engineered backend pipeline using Microsoft Graph API and Gemini API to perform live mailbox syncing and automated data extraction from invoice attachments.
Technologies: Microsoft Graph API, Gemini API, Python, Django

SentimentSense – Review Sentiment Analyzer Feb – June 2025

Machine Learning Project
Created a supervised ML system to parse and classify consumer product reviews with text preprocessing, mitigating overfitting during validation cycles.
Technologies: Python, Scikit-Learn, Pandas, NumPy, Keras, Flask

Technical Skills

ADVANCED Python, Django, C# (.NET Core), Object-Oriented Programming (OOP), Database Design
INTERMEDIATE TypeScript, Next.js, Angular, Node.js, RESTful APIs, Bootstrap, HTML & CSS
FOUNDATIONAL Machine Learning, Scikit-Learn, Keras, Pandas, NumPy, PostgreSQL, SQL Server, Docker, Git

Languages

- **Urdu:** Native Speaker
- **English:** Professional Command

Interests

- Intelligent System Design & AI Automation
- Legal & Care Quality Compliance Software
- Full-Stack Enterprise Applications
